

## HMRC tax investigations are increasing: we can help

Dear [Name]

Get ahead of HMRC with our tax investigation service

As your accountants, we're concerned that more individuals and businesses than ever before are at risk of a HMRC tax investigation. The number of people being investigated has doubled in the last year, and the number of self-employed people has quadrupled since 2011.

Did you know that HMRC can strike anyone, at random, at any time? It makes no difference how large or small your business. In 2013, they made inquiries about the tax affairs of 237,215 people, compared with about 119,000 in 2011-12\*.

### Why protection is a good idea

A tax investigation can be a stressful and costly experience, going into thousands of pounds and lasting for months.

That's why we're recommending our tax investigation service to all our clients. For a small yearly fee, we will:

- Defend you if you are selected for a HMRC tax investigation.
- Cover all costs included in the service so that you know where you stand.
- Support you through the process and minimise any hassle.

### Act now to safeguard your business

Our normal costs don't cover a tax investigation, so it makes sense to protect yourself and your business with our service. We'll take care of the cost and the hassle for you, giving you one less thing to worry about – so that you can focus on what matters most to your business.

It's one small thing you can do today that could make a big difference to your business if HMRC come calling.
